Important Questions	Answers	Why This Matters:
What is the overall deductible?	\$2,500 Individual/\$7,500 Family, excluding preventive care, office visits, prescription drugs.	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. Check your policy or plan document to see when the deductible starts over (usually, but not always, January 1 st). See the chart starting on page 2 for how much you pay for covered services after you meet the deductible. If you have other family members on the plan, each family member must meet their own individual deductible.
Are there services covered before you meet your deductible?	Yes. Preventive care, office visits, and prescription drugs are not subject to the medical deductible. Tier I and II Retail Prescription drugs are not subject to the prescription drug deductible.	This plan covers some items and services even if you haven't yet met the deductible amount, but a co-payment or co-insurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ .
Are there other deductibles for specific services?	Yes. For Out-of-Network medical covered services: \$5,000 Individual/\$10,000 Family. For Prescription Drugs: \$500 Individual/\$1,500 Family. Applies to Tier III, IV and V.	Generally, you must pay all of the costs from out-of-network providers up to the deductible amount before this plan begins to pay. If you have other family members in this plan, they have to meet their own deductible until the overall family deductible has been met. A single family member has met his or her deductible by reaching the individual deductible amount. Other family members' payments combine to meet the remainder of the family deductible.
What is the out-of-pocket limit for this plan?	For In-Network providers: \$7,350 Individual/\$14,700 Family.	The out-of-pocket limit is the most you could pay in a year for in-network covered services. If you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit?	Premiums, balance-billing charges, out-of-network, some coinsurance, services this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit.
Will you pay less if you use a network provider?	Yes. Visit www.VantageHealthPlan.com and click "Find a Provider" or call (844) 833-7505 for a list of network providers.	This plan uses a provider network. You will pay less if you use a provider in the plan's network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist?	No.	You can see the specialist you choose without a referral.
